Measurements:

- Weight: 29 g
- A: 130 mm
- C: 52 mm
- E: 130 mm

All of our frames are made of robust, flexible, shatterproof and anti-allergic material. The frames are mainly produced with the material TR90. A lot of our frames also have a RX clip adapter, the possibility of optical glazing, adjustable temples and nose pads as well as more beneficial features to ensure a good fit.

All Swisseye sports glasses have shatterproof polycarbonate lenses. All of these products protect to 100% UVA-, UVB- and UVC-rays and offer the highest optical quality without distortion.

The combined antifog/antiscratch-coating prevents all lenses for steaming up and scratches (not available for all photochromic/polarized and bifocal lens/es. With the hydrophobic coating water rolls off the lens easily and particles are eliminated.

All models are produced according to the strict safety norm EN 12312-1 and offer 100% UVA-, UVB- and UVC protection.

SwissEye

The brand Swisseye was founded in 1998 in Germany. Since this year the company has been a successful producer of

SWISSEYE®

sports, leisure, protection and special glasses that also sells sports glasses to optician shops. Today Swisseye supplies retailers in Germany as well as numerous customers abroad.

Swiss Eye International has built up a wide network in the specialized trade in Germany to present the high quality as well as innovative products on this market.

Our main promises are best quality, personal service and a safe future due to our constant product developments. The main aim for the next years will be to assure the national specialized trade as well as the international markets.
