Cord diameter / length	3.5 mm × 6 m
Pack weight	90 g
Cord material	TPU-sheath shock-cord (polyester core)
Hardware material	Acetal (POM) cord-stoppers & pull tabs
Colour	Black

Material highlights

• **TPU (Thermoplastic Polyurethane)** - tough, abrasion-resistant outer sheath; stays flexible in heat and UV. • **Acetal (POM)** - high-strength engineering plastic that keeps its shape from -40 °C to +132 °C; ideal for buckles & cord-locks.

Typical uses

- Replace fatigued bungee on mag pouches or water-bottle pockets.
- Add shock-cord to pack lids, beaver-tails or helmet cradles.
- Create one-hand pull tabs for tourniquet holders or radio pouches.

Fitting tips

1. Cut cord to length; lightly melt ends to stop fraying.
2. Thread through pouch eyelets, then the acetal cord-lock; tie a stopper knot.
