## Description

The TT Modular Tac Pack 28 is also suitable for loading more weight due to the reinforcement of the back system with a PE plate and an aluminum rail. For this purpose, it also has a preparation for attaching the sturdy TT Molle Hip Belt (a simple webbing hip belt is included). The backpack features a fully expandable main compartment with shallow mesh pockets, four small mesh side pockets, and MOLLE hook-and-loop areas for customization. The MOLLE system on the front pocket and sides can be used to attach additional gear. There is also an attachment option for tripods or poles. Two completely circumferential compression straps are used for volume adjustment.

- Padded Back Carrying System
- Height-adjustable chest belt
- Removable webbing hip belt
- Preparation for hip belt fixation (item 7286 TT MOLLE Hip Belt)
- Two removable, fully wraparound compression straps
- Extra-durable handle
- Hydration system compatible
- Side attachment option through bungee cord, e.g. for sticks or tripods (bungee cord and cord stopper included)
- Flat mesh pockets inside
- Front pocket with zipper
- Hook-and-loop patch on the frontside (loop)
- Detachable rear panel with aluminium frame (can be shaped)
