### Description

CIBV DUTY vest fits both type of ballistic protection: hard plates (25x30m plates - front/back) and soft ballistic inserts (front/back/sides). It is equipped with Rapid Open Connector buckles (cummerbund and harness) system and front buckles-attached placards system - all compatible with GEN4 CPC/TPC vests.

The set consists of a vest (both front and rear for plates + soft ballistic inserts), a side cummerbund with integrated pockets for soft ballistic inserts, shoulders with integrated pockets for soft ballistic inserts. CIBV is made of durable Cordura 500D-based laminate, IRR treated.

#### Tactical Vest Features and Benefits

- **Integrated, Laser-Cut MOLLE Platform**
  - Front and Back Panels (4/6x12 and 6x12): Provides a highly customizable attachment system for various pouches and gear.
  - Sewn-in Velcro Panel: Handy for attaching identification patches or morale patches.
- **Additional Horizontal MOLLE Platform (9x2):** Adds extra space for attaching gear, possibly on the lower part of the vest, which can be useful for carrying additional pouches or tools.
- **Interchangeable Front Panels:** Allows for quick customization and adaptability based on mission needs. Different panels could be pre-configured for different scenarios.

## ORDER CONFIRMATION

---

- **Integrated Emergency Grip:** Essential for quick extraction or evacuation in emergency situations.
- **Compatibility with Templar's Gear Cumberbunds and Accessories:** Ensures versatility and compatibility with a range of accessories, making it easier to expand or adapt the vest setup.
- **Monolithic Baucent Laminate Structure and Gambeson Lining:** Likely provides a durable, wear-resistant outer shell with comfortable inner lining, balancing protection and comfort.
- **Soft Ballistic Inserts Compatibility:** Enhances anti-fragmentation protection, offering an additional layer of safety against shrapnel or debris.
- **Hard Ballistic Inserts Compatibility:** Accepts hard plates in standard sizes (20x30 cm / 10''x12'' for M, and 22x35 cm / 11''x14'' for L), providing protection against higher caliber threats.
- **Kit Components:** Includes vest, cummerbund with integrated pouches for soft ballistic inserts, and ballistic shoulder pads, offering comprehensive coverage and protection.

## Considerations

- **Customizability:** The MOLLE system and interchangeable panels make this vest highly adaptable to various missions and user preferences.
- **Protection:** Both soft and hard ballistic insert compatibility ensures that the vest can be tailored for different levels of threat.
- **Comfort and Durability:** The use of high-quality materials like the Baucent laminate and Gambeson lining suggests a good balance of durability and comfort.
- **Emergency Features:** Integrated emergency grip is crucial for safety in critical situations.

## Opinions

- **Operational Flexibility:** The interchangeable panels and MOLLE platforms make it versatile for various operational needs.
- **Comprehensive Protection:** The ability to add both soft and hard ballistic inserts provides significant protection, suitable for high-risk environments.
- **Comfort and Practicality:** With the addition of shoulder pads and the use of durable yet comfortable materials, it seems practical for extended use.

### Sizes:

Ballistic hybrid cummerbund for TPC, CPC ROC, CPC LP, CIBV, KSAV and similar vests with internal pockets for soft ballistic inserts available in medium, large and XLarge sizes with circumference:

- Medium: 90-110 cm
