Description

PT1 is made as a belt cover that can be put over any type of duty or rigger's belt that is not more than 50 mm wide. The inner layer is made of soft spacer mesh and a closed-foam liner (with plastic stiffener) to increase the user's comfort. The outer surface is made of laminate and designed to be MOLLE compatible.

The design allows to let the inner belt on the outer surface in certain places, which allows to attach the belt holster.

The belt has 4 attachments to the harness (works with our X-Harness and HH4 Harness).

The foam liner can be replaced with dedicated ballistic insert through zip pocket.

Belt is made of Cordura 500D and a durable Cordura 500D-based laminate.

Both fabrics are IRR treated.

PT1 comes in 3 sizes: S, M, L.

Size	Length (cm)	Weight (g)
S	70	370
M	75	379
L	80	385
XL	85	396

Note: If not in stock, then product is made and delivered usually in 1-4 weeks based on special order from manufacturer.

Made in Poland.
