Description

Templar's PT4 Gen III Tactical Belt

The Templar's Gear PT4 Gen III is a low-profile tactical battle belt designed for use together with any rigger or duty belt up to 50 mm wide. Made from laser-cut Cordura® 500D laminate, it provides a lightweight yet durable platform for professional field use. The MOLLE-compatible exterior allows users to mount pouches and accessories, while designated openings let the inner belt be exposed to attach belt-mounted holsters. To increase comfort, the belt includes a soft velour-lined comfort pad. This material works with hook Velcro, improving stability and preventing belt shifting during movement. The PT4 M Gen III also includes four reinforced loops for attaching a harness (compatible with Templar's Gear X-Harness and 4-point H-Harness). The IRR-treated material ensures reduced infrared visibility.

Aim of the Product

This belt is designed to provide a stable, modular platform for mounting mission-essential gear. Its slim profile makes it suitable for dynamic movement, kneeling, bending and extended wear without sacrificing load-bearing capability.

ORDER CONFIRMATION

- Military personnel
- Law enforcement officers
- Security and tactical professionals
- Airsoft, MILSIM and shooting sports users
- Users requiring a lightweight MOLLE-compatible duty platform

Product Use

Wear the PT4 over an inner belt (not included). The inner Velcro surface stabilises the system, while anti-slip patches keep it from shifting during movement. Use the MOLLE slots to mount pouches, holsters or accessories. The reinforced loops allow attaching a compatible harness for additional load stability. Ensure correct sizing to maximise comfort and mobility.

Specifications & Technical Details

- **Material:** Cordura® 500D-based laminate (IRR-treated)
- **Compatibility:** Works with belts up to 50 mm wide
- **MOLLE:** Laser-cut MOLLE slots
- **Harness mounts:** 4 reinforced loops
- **Comfort:** Velour-lined pad, anti-slip interior patches
- **Construction:** Lightweight, contoured, foam-free design
- Other color options by request

Available Sizes

Size	MOLLE Slots (Sides/Back)	Waist Range
S	5 / 6	84-92 cm
M	6 / 6	92-100 cm
L	7 / 6	100-108 cm
XL	8 / 6	108-116 cm

Care & Maintenance

- Hand-clean using mild soap and warm water.
- Do not bleach, machine-wash or tumble-dry.
- Allow to air-dry completely.
- Avoid heat sources, direct flame or chemical solvents.
- Inspect MOLLE slots and stitching regularly when used heavily.

Other Useful Information

Templar's Gear equipment is known for precision laser-cut construction and high performance in demanding tactical environments. The PT4 belt's lightweight, foam-free build enhances mobility and is suitable for both professional duty and recreational tactical activities.

Glossary of Terms

- **MOLLE:** Modular Lightweight Load-Carrying Equipment system for attaching compatible pouches.
- **IRR Treatment:** Material treatment that reduces infrared reflectivity
