FAQ

How long does the body warmer provide heat? For up to 12 hours, depending on ambient temperature and airflow.

Can the body warmer be reused? Single-use heat pad.

Can it be placed directly on skin? No. Always attach the body warmer to clothing or bags.

Is the body warmer suitable for children? 6 years of age.

Glossary

- **Oxidation process:** Heat generation through controlled reaction with oxygen
- **Disposable heat pad:** Single-use product designed to provide temporary warmth
- **Self-adhesive:** Integrated adhesive layer for secure placement

Safety & Warning Information

- Not suitable for children under 6 years of age
- Keep out of reach of small children
- Not for medical use
- Do not use on swollen, injured, diseased, frostbitten or sensitive skin
- Avoid direct skin contact
- Remove immediately if it becomes uncomfortably hot
- Do not pierce, cut or damage the heat pad
- Avoid contact of contents with eyes, mouth or mucous membranes
- Stop use and consult a doctor if skin reactions, burns or swelling occur

Ingredients & Disposal

- **Ingredients:** Iron powder, salt, activated charcoal, water, vermiculite
- **Disposal:** Dispose of used heat pads with household residual waste
