Description

Thermowave Men's Merino Arctic Thermal LS Shirt – 100% Merino Wool Base Layer

The **Thermowave Men's Merino Arctic Thermal LS Shirt** is designed for **extreme cold conditions** where maximum warmth and comfort are essential. Made from a premium blend of **95% merino wool and 5% elastane**, this base layer combines natural insulation with excellent elasticity and freedom of movement.

With a **265 GSM fabric weight** and a **brushed inner surface**, the Merino Arctic line delivers superior softness and heat retention while maintaining merino wool's natural breathability and moisture management. This keeps the body warm, dry, and comfortable even during prolonged or high-intensity activities in cold environments.

The next-to-skin fit, longer back coverage, and flatlock seam construction make this shirt a reliable choice for demanding outdoor use where warmth, durability, and comfort matter most.

Key Features

- Next-to-skin performance fit
- Extra warm construction for the coldest conditions
- Brushed inside for superior softness and insulation
- 95% merino wool for natural warmth and breathability
