Description

SJ-200 Japanese Waterstone - 4000 Grit

The **SJ-200 Japanese Waterstone** is a 4000 grit grinding wheel that provides a mirror finish. Its fine surface polishes the edge and creates the ultimate surface finish for tools. If you're seeking razor sharpness, this is the grinding wheel for you! It fits the Tormek T-4 and earlier machine models with a grinding wheel 200 mm (7 7/8") in diameter.

Why Choose the SJ-200 Japanese Waterstone?

- **Mirror-finish bevel:** Polishes the bevel to a reflective surface.
- **4000 grit:** For superior sharpness.
- **Versatile compatibility:** Fits Tormek T-4, Tormek T-3, and older models.

Mirror Finish - Never in Vain

The **SJ-200 Japanese Waterstone** is designed for sharpening hand tools like woodcarving tools, knives, scissors, plane irons, and chisels, requiring

ORDER CONFIRMATION

minimal steel removal and superior sharpness. It's perfect for professionals and enthusiasts who want clean, razor-sharp bevels. Though it excels at fine sharpening, it's not intended for reshaping tools. For reshaping, use a coarser grinding wheel before finishing with the SJ-200. The unique composition of the SJ-200 ensures an extremely long service life. You often won't need to use a leather honing wheel afterwards because the SJ-200 leaves such a fine finish.

Low Maintenance, Long Service Life

To maintain the SJ-200, clean its surface regularly to remove fine steel particles using the fine side of the SP-650 Stone Grader or the coarse side of a sponge. Avoid using the coarse side of the stone grader as it could damage the grinding surface.

The **SJ-200 Japanese Waterstone** fits Tormek T-4, Tormek T-3, and earlier models with a grinding wheel diameter of 200 mm (7 7/8") and a width of 40 mm (1 5/8"). For larger models, the SJ-250 Japanese Waterstone is available for the Tormek T-8 Original or Custom.

Specs and Details:

- **Grinding Wheel Dimensions:** Diameter: 200 mm (7 7/8"), Width: 40 mm (1 5/8")
- **Shipping Weight:** 2.60 kg (5.73 lbs)
- **Color:** Blue
- **Material:** Aluminum oxide
- **Grit:** 4000 grit
- **Warranty:** 2-year warranty

Included in the Box:

- **SJ-200 Japanese Waterstone:** Fully assembled and ready to use.
- **Instructions for the SJ-200 Japanese Waterstone**

The **SJ-200 Japanese Waterstone** is the ideal grinding wheel for creating the finest surface finish on your tools. It's designed to provide superior sharpness and a mirror-finish bevel, making it perfect for sharpening professionals and enthusiasts alike.
