Description

Professional Injection Molded Polymer Holster – Safety Grade 3

Experience unmatched durability and security with our Professional Injection Molded Polymer Holster, designed for tactical professionals and serious enthusiasts. This holster combines advanced safety features with versatile attachment options to ensure superior performance in any situation.

Key Features:

- **Advanced Retention System:** Features retention screws and a double friction clip to securely hold the firearm in place. Includes both thumb and index finger releases for the upper and lower safety locks, enhancing both security and quick access.
- **Adaptable Design:** Offers the flexibility to close the bottom opening and the option for a fully covered index finger safety lever, catering to different operational preferences.
- **Versatile Attachment Options:** Equipped with a MOLLE/belt adjustable and rotatable attachment, making it suitable for attachment to a belt or a vest. Compatible with all Vega Holster loops and kits for diverse carrying setups.
- **Adjustable Features:** Allows for angle adjustment and features a
