Description

The Sakura Kitchen Knife series is a joint project of Viper and Danish knifemakers Jens Ansø and Jesper Voxnæs. The four steak knives were made from nitrogen alloyed Nitro B (58-59 HRC). The 3D-milled Bocote handle scales give the Sakura series a beautiful look and feel. The sophisticated look is highlighted by the textured transition from handle to blade and the decorative screws on the handle scales. This series is definitely a cut above regular kitchen knives.

The $\underline{Santoku}$ is a Knife that is also becoming more and more popular in Europe. It is originally a Japanese blade form for a <u>Utility Knife</u>. Translated, his name means "The Three Virtues", it is equally suitable for meat, fish and vegetables. Thanks to the wide blade, the Santoku is particularly easy to handle.

Type: Kitchen Knife Designer: Jens Ansø

Jesper Voxnæs

Total lenght: 27,5 Blade Length: 16,0 Blade Thickness: 3,0 Blade Material: Nitro-B Handle Material: Bocote Wood
