Description

Vipole BASE CAMP Trekking Poles (Green)

The **BASE CAMP** trekking poles by **Vipole** are an all-season solution crafted from ultra-light yet strong Alu 7075 alloy. Ideal for a wide range of hiking conditions, these poles feature a protective foam extension, ergonomic RoundHead grip, Plume strap, and a **QuickLock** system for quick length adjustments. A convenient carrying bag is included to transport and store them when not in use.

Key Features & Benefits

- **Alu 7075 Construction:** Aeronautic-grade aluminum alloy, offering an excellent balance of strength, low weight, and recyclability.
- **Thin Shaft (12/14/16 mm):** Reduces diameter through each pole segment, resulting in lighter weight, improved balance, reduced swing effect, and less wind resistance.
- **QuickLock Adjustment:** A lever-based locking system that makes pole length changes fast and glove-friendly, particularly useful in winter or challenging weather.
- **RoundHead Ergonomic Grip:** Rounded top handle for natural holding posture on flat terrain or slow walks, while providing a secure grasp on steep slopes.
- **Plume Strap:** Seamless, breathable, and lightweight high-tenacity polyester strap - saving 9 g/pair compared to standard straps.
- **Foam Extension:** Dense foam below the main grip for a comfortable hold

Locking System	QuickLock
Accessories	Trekking round tip, baskets, carrying bag
Color	Green

Why Choose Vipole?

Vipole's passion for trekking poles stems from founder **Nicola Vidale**, who merges anatomical and physiological expertise with an innovative construction method. Each Vipole product embodies Italian design, specialized technical know-how, and premium materials. Vipole continues to invest in research and innovation, exemplified by its "Nordic Power" collection for muscle strengthening and advanced technology. All Vipole poles include proprietary safety features at their core.
