## Description

Warrior's DCS AK Plate Carrier is a lightweight, low-profile and ergonomically designed plate carrier, developed to provide exceptional comfort and functionality. Designed with direct input from active SF operators, the DCS plate carrier system is suitable for both Special Forces and PSD operations requirements.

The shoulders are fully adjustable and have an emergency release on one side that clears the left shoulder area and allows the operator to remove the rig without removing their helmet. The DCS side panels are fully adjustable for size and can be adjusted in less than 15 seconds. The 3D spacer mesh lining provides the necessary comfort.

The DCS AK variant comes standard with 5 x Open Mags for 7.62 mm AK magazines and 2 x Small Utility / Medic Pouch.

### Details:

Modular loops to accept Nato standard 25 mm pouches

Accommodates ballistic protection plates Stand Alone.

Easy and flexible size adjustment.

Velcro front opening.

Fastex buckle on right shoulder strap facilitates donning and doffing.

Padded and removable shoulder pads.

Rescue handle.

Velcro area on front and back for patches.

High comfort and ventilation due to 3D mesh material.
