Description

The Warrior Helmet Cargo Pack Large (HCP) is the big brother of the standard HCP. In every way, the Large HCP has the same features, just on a larger scale with 28 liters of volume. The Large HCP features a large main compartment that opens with a sturdy No.10 YKK 2-way zipper. The main compartment has two slip pockets and a compartment for a 3-liter hydration bladder (not included). It has two side pockets on the outside that provide additional storage space for a variety of small items. On the outside of the main compartment is a fully adjustable folding pouch designed to hold a helmet, jacket, clothing, etc. On the inside of this pouch are 3 slide-in pockets that can hold up to six magazines.

The HCP can be worn with 2 padded, removable shoulder straps, or if these are removed, the HCP can be attached to the back of a plate carrier, such as DCS or RPC, with MOLLE loops.

The HCP is constructed of water-resistant 500D Cordura®. All materials used have the lowest infrared ratings (99.8%) and are produced to military specifications.

Details:

- Removable padded shoulder straps with quick release buckles.
- Chest strap with quick release buckle.
- Padded back area.
- MOLLE attachment system on the back.
- Large main compartment with 2 slip pockets and compartment for
