Description

The Laser Cut Detachable Triple 5.56 Mag Pouch from Warrior Assault Systems is a detachable front panel triple 5.56 magazine pouch that attaches to the front of the LPC plate carrier with Velcro and 2 vertical SQM clips. The magazine pocket panel holds 3 5.56 mm x 45 mm magazines, which are held in place with elastic cord fasteners. The pockets are lined on the inside with anti-slip Hypalon material, which prevents the magazine from slipping when the elastic cord closure is removed. The magazine pouches each have 4 MOLLE slots on the outside to which additional pouches such as pistol magazine pouches, CAT holsters or multitool holsters can be attached. Suitable for all common 5.56 mm magazines, such as NATO STANAG 4179, AR-15/M4/M16 incl. PMAGs, Steyr AUG.

The Laser Cut material is made of high quality composite laminate material. All threads are resistant to mildew, UV light, water, heat and cold. All materials used have the lowest infrared values (99.8%) and are produced to US military specifications in the USA.
