Description

The Laser Cut Elasticated Tourniquet Holder from Warrior Assault Systems is designed for the secure storage of a C.A.T. Tourniquet. It is also compatible with S.O.F.T. Tourniquets, though it may fit tightly. This holder is crafted from high-quality composite laminate material, ensuring durability and reliability under all conditions.

Key Features

- Designed primarily for C.A.T. Tourniquets, with compatibility for S.O.F.T. Tourniquets.
- One-hand operation for quick and easy access.
- Elastic side bands for secure compression and fit.
- Closure tab with Velcro and reinforced finger loop for effortless handling.
- Laser cut PALS attachment loop for MOLLE system (25 mm).
- IRR coating to reduce infrared signature.
- Durable materials meeting US military specifications.

- **Material:** 500D Cordura® Nylon
- **Dimensions:** Approx. 11.5 x 4.5 x 3.8 cm
- **Weight:** Approx. 30 g

Additional Information

This universal tourniquet holder can be mounted on a belt or attached to any carrier in the Warrior Assault Systems range. It allows single-handed opening for quick and efficient removal. The pouch is attached using a single MOLLE arm and can also securely hold an S.O.F.T. Tourniquet.

Material Quality

The holder is engineered from high-quality composite laminate material using advanced laser cutting machines. All threads are resistant to mildew, UV light, water, heat, and cold, ensuring long-lasting performance. Additionally, all materials are coated to achieve the lowest infrared values (99.8%).

Note

This product is supplied without contents. Images showing tourniquets or other items are for demonstration purposes only.
