Description

Front panel for carrying tactical accessories

The Guardian Kangaroo Flap is a front panel designed for the Guardian Plate Carrier. It attaches to the vest using two buckles and hook & loop fasteners. The panel features a large box pocket with an internal hook & loop, allowing for the installation of a Law Enforcement Insert as well as inserts from the Competition system. The large, soft hook & loop surface on the panel allows for the attachment of the Law Enforcement Insert flaps and enables direct fastening of the cummerbund to the flap, eliminating the need for constant unfastening.
