This is an exact replacement for the complete set of belts included with the Blade Grinding Attachment. Includes (1) belt of each grit: 120, X65, X22, X4, 12000.

# 1-4 Weeks

## Description

This is an exact replacement for the complete set of belts included with the Blade Grinding Attachment.

Includes (1) belt of each grit: 120, X65, X22, X4, 12000.

Abrasive belts for the Blade Grinding Attachment are formulated, designed, and made in America by industry-leading abrasives manufacturer Norton for precision sharpening of high-strength steels. The grit symmetry, spacing, and backing flexibility are all designed to produce the optimal convex edge with minimal heating or material takeoff. If you've ever used a belt sander to sharpen, you know how quickly the steel heats and how much excess material can be removed if you aren't careful. Our abrasives are a key component of our success in the sharpening world.
